NORTHERN DISTRICT OF OHIO
EASTERN DIVISION**

IN RE NATIONAL PRESCRIPTION OPIATE
LITIGATION

This document relates to:

MDL No. 2804
Case No. 17-MD-2804

Judge Dan Aaron Polster

Montgomery County Board of County Commissioners, *et al.*,

Plaintiff,

v.

Cardinal Health, Inc., *et al.*,

Defendants, and

CVS Indiana L.L.C., CVS Rx Services, Inc., CVS TN Distribution, LLC, CVS Pharmacy, Inc., Ohio CVS Stores, LLC, The Kroger Co., Kroger Limited Partnership I, Kroger Limited Partnership II, Rite Aid of Maryland, Inc., Rite Aid Hdqtrs. Corp., Rite Aid of Ohio, Inc., Meijer, Inc., Meijer Distribution, Inc., and Meijer Stores Limited Partnership,

Defendants and Third-Party Plaintiffs, v.

JOHN AND JANE DOES 1-5000,

Third-Party Defendants.

Case No. 18-op-46326

DEMAND FOR JURY TRIAL

THIRD-PARTY COMPLAINT

Defendants and Third-Party Plaintiffs CVS Indiana L.L.C., CVS Rx Services, Inc., CVS TN Distribution, LLC, CVS Pharmacy, Inc., Ohio CVS Stores, LLC, The Kroger Co., Kroger Limited Partnership I, Kroger Limited Partnership II, Rite Aid of Maryland, Inc., Rite Aid Hdqtrs. Corp., Rite Aid of Ohio, Inc., Meijer, Inc., Meijer Distribution, Inc., and Meijer Stores Limited Partnership (collectively, the “Montgomery County Pharmacy Defendants”) bring this Third-Party

Complaint against Third-Party Defendants John and Jane Does 1-5000 (the “Prescriber Defendants”).

1. The Prescriber Defendants are the licensed healthcare professionals who wrote and authorized the prescriptions for FDA-approved opioid medications that, according to Plaintiff Montgomery County, Ohio (“Plaintiff”), should not have been filled by pharmacists employed by the Montgomery County Pharmacy Defendants. Years after the fact, and without any knowledge about the patients under the Prescriber Defendants’ care or the purpose of the prescriptions, Plaintiff now contends that these physicians and other practitioners wrote prescriptions for an “excessive volume” of prescription opioid medications in Montgomery County. (*E.g.*, Doc. 46 ¶¶ 233, 396, 430, 483.¹) The heart of Plaintiff’s claim against the Montgomery County Pharmacy Defendants is that they are liable because their pharmacists filled prescriptions that the Prescriber Defendants wrote. Plaintiff’s own allegations make this Third-Party Complaint necessary.

2. To be clear, the Montgomery County Pharmacy Defendants deny Plaintiff’s contention that a vast number of Ohio physicians and other practitioners wrote an “excessive volume” of opioid prescriptions in bad faith or without a legitimate medical purpose. But that is Plaintiff’s claim. Indeed, Plaintiff’s claim is that numerous physicians and other healthcare providers wrote improper prescriptions that pharmacists working for the Montgomery County Pharmacy Defendants should have refused to fill. And it is the basis for Plaintiff’s attempt to impose liability on the Montgomery County Pharmacy Defendants.

¹ No amount of artful pleading by Plaintiff can mask the obvious fact that when Plaintiff alleges that pharmacists working for the Montgomery County Pharmacy Defendants supposedly filled prescriptions for an “excessive volume” of opioid medications, somebody else must have written those prescriptions—*i.e.*, the Prescriber Defendants.

3. Although Plaintiff says that prescriptions written by the Prescriber Defendants are to blame for the opioid crisis in Montgomery County, it asserts liability against only the Montgomery County Pharmacy Defendants and, somehow, not the Prescriber Defendants themselves. Plaintiff also ignores the “pill mills” for which Ohio has become notorious and the unscrupulous pain clinics and internet pharmacies that fed the illicit market for prescription opioids. In a misguided hunt for deep pockets without regard to actual fault or legal liability, Plaintiff has elected not to sue any of these other parties.

4. The premise of Plaintiff’s Complaint is nothing more than unsupported speculation that local pharmacists working for the Montgomery County Pharmacy Defendants filled prescriptions for opioid medications that they should not have filled. However, Plaintiff’s lengthy Complaint against the Montgomery County Pharmacy Defendants *fails to identify even one prescription* that was supposedly filled improperly by any pharmacist working for any of the Montgomery County Pharmacy Defendants.

5. Plaintiff also ignores that pharmacists do not write prescriptions and do not decide for doctors which medications are appropriate to treat their patients. A prescription for a controlled substance is an order for a medication that may be issued *only* by a physician or other authorized healthcare practitioner. While pharmacists are highly trained and licensed professionals, they did not attend medical school and are not trained as physicians. They do not examine or diagnose patients. They do not write prescriptions. And with only very limited exceptions permitted by law, pharmacists are bound to respect a prescribing doctor’s professional medical judgment about which medications are appropriate to treat a particular patient under the doctor’s care. Indeed, the American Medical Association has strongly objected to what it calls “[i]nappropriate inquiries from pharmacies to verify the medical rationale behind prescriptions, diagnoses and treatment

plans” as “an interference with the practice of medicine and unwarranted.” Policy D-35.981, AMA Response to Pharmacy Intrusion Into Medical Practice (2013).

6. “A prescription for a controlled substance to be effective must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice.” 21 C.F.R. § 1306.04(a). And while pharmacists exercise a “corresponding responsibility,” it is always the prescriber’s own responsibility, which the prescriber cannot delegate to the pharmacist or anyone else, to ensure that prescriptions for controlled substances are proper in all respects: “The responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner” *Id.*

7. The Montgomery County Pharmacy Defendants deny Plaintiff’s allegations and deny that they are liable in any respect. But if the Montgomery County Pharmacy Defendants can be held liable to Plaintiff for filling prescriptions written by the Prescriber Defendants—which the Montgomery County Pharmacy Defendants expressly deny—ultimate responsibility must rest with those who wrote the prescriptions: the Prescriber Defendants themselves. The Prescriber Defendants are therefore fully liable to Plaintiff on Plaintiff’s claims against the Montgomery County Pharmacy Defendants, and therefore fully liable to the Montgomery County Pharmacy Defendants in the event they are held liable on such claims.

8. Plaintiff has identified some, but not all, of the prescriptions that it believes should have activated “red flags” with Montgomery County Pharmacy Defendants and thus should not have been filled. Those lists encompass prescriptions written by numerous providers.

9. Plaintiff has expressly reserved the right to narrow that unwieldy list with the benefit of more discovery. Therefore, at this time, the Montgomery County Pharmacy Defendants cannot name the providers that Plaintiff actually claims wrote medically unnecessary prescriptions

that should not have been dispensed. The Montgomery County Pharmacy Defendants believe that a vanishingly small number of these providers—if any at all—actually wrote improper prescriptions. This Third-Party Complaint is intended to be strictly limited to those providers that *Plaintiff* alleges wrote improper prescriptions. Once Plaintiff provides a final list of the prescribers who it alleges wrote improper prescriptions, the Montgomery County Pharmacy Defendants can amend this Third-Party Complaint to name only those prescribers. In the meantime, the Montgomery County Pharmacy Defendants refuse to burden thousands of innocent prescribers and the Court by filing and serving any prescriber who could *possibly* fall into that category. Thus, the Montgomery County Pharmacy Defendants lack the information necessary to accurately identify the relevant prescribers and file this Third-Party Complaint against unidentified Third-Party Defendants John and Jane Does 1-5000 in order to comply with CMO ¶ C.4. by filing this Third-Party Complaint within 14 days after filing their answers.

Parties

10. Third-Party Plaintiff CVS Indiana L.L.C. is an Indiana limited liability company with its principal place of business in Rhode Island. Plaintiff alleges that Third-Party Plaintiff CVS Indiana L.L.C. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

11. Third-Party Plaintiff CVS Rx Services, Inc. is a New York corporation with its principal place of business in Rhode Island. Plaintiff alleges that Third-Party Plaintiff CVS Rx Services, Inc. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

12. Third-Party Plaintiff CVS TN Distribution, LLC is a Tennessee limited liability corporation with its principal place of business in Rhode Island. Plaintiff alleges that Third-Party

Plaintiff CVS TN Distribution, LLC is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

13. Third-Party Plaintiff CVS Pharmacy, Inc. is a Rhode Island corporation with its principal place of business in Rhode Island. Plaintiff alleges that Third-Party Plaintiff CVS Pharmacy, Inc. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

14. Third-Party Plaintiff Ohio CVS Stores, L.L.C. is an Ohio limited liability company with its principal place of business in Rhode Island. Plaintiff alleges that Third-Party Plaintiff Ohio CVS Stores, L.L.C. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

15. Third-Party Plaintiff Rite Aid of Maryland, Inc. is a Maryland corporation with its principal place of business in Pennsylvania. Plaintiff alleges that Third-Party Plaintiff Rite Aid of Maryland, Inc. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

16. Third-Party Plaintiff Rite Aid Hdqtrs. Corp. is a Delaware corporation with its principal place of business in Pennsylvania. Plaintiff alleges that Third-Party Plaintiff Rite Aid Hdqtrs. Corp. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

17. Third-Party Plaintiff Rite Aid of Ohio, Inc. is an Ohio corporation with its principal place of business in Pennsylvania. Plaintiff alleges that Third-Party Plaintiff Rite Aid of Ohio, Inc. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

18. Third-Party Plaintiff The Kroger Co. is an Ohio corporation with its principal place of business in Ohio. Plaintiff alleges that Third-Party Plaintiff The Kroger Co. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

19. Third-Party Plaintiff Kroger Limited Partnership I is an Ohio limited partnership with its principal place of business in Ohio. Plaintiff alleges that Third-Party Plaintiff Kroger Limited Partnership I is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

20. Third-Party Plaintiff Kroger Limited Partnership II is an Ohio limited partnership with its principal place of business in Ohio. Plaintiff alleges that Third-Party Plaintiff Kroger Limited Partnership II is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

21. Third-Party Plaintiff Meijer, Inc. is a Michigan corporation with its principal place of business in Michigan. Plaintiff alleges that Third-Party Plaintiff Meijer, Inc. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

22. Third-Party Plaintiff Meijer Distribution, Inc. is a Michigan corporation with its principal place of business in Michigan. Plaintiff alleges that Third-Party Plaintiff Meijer Distribution, Inc. is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

23. Third-Party Plaintiff Meijer Stores Limited Partnership is a Michigan limited partnership with its principal place of business in Michigan. Plaintiff alleges that Third-Party Plaintiff Meijer Stores Limited Partnership is liable to it in connection with dispensing prescription opioid medications in Montgomery County.

24. Third-Party Defendants John and Jane Does 1-5000 are the licensed doctors and other healthcare practitioners who wrote and/or authorized the prescriptions for opioid medications that, Plaintiff alleges, should not have been filled by pharmacists employed by the Montgomery County Pharmacy Defendants and that give rise to the alleged liability of the Montgomery County Pharmacy Defendants to Plaintiff. Because Plaintiff has identified thousands of prescriptions that, it asserts, have raised “red flags” (so far), implicating numerous providers, and reserved the right to later narrow that list to a more manageable number, the Montgomery County Pharmacy Defendants have not been able to determine the true identities of the actual Prescriber Defendants at issue. When Plaintiff finally identifies the prescriptions that it alleges should not have been filled and the practitioners who wrote those prescriptions, the Montgomery County Pharmacy Defendants will amend this Third-Party Complaint with the true names of the Prescriber Defendants.

Factual Background

25. The Montgomery County Pharmacy Defendants incorporate the allegations of paragraphs 1 through 24 above and reallege them as if set forth verbatim herein.

26. Plaintiff initially filed its lawsuit against certain of the Montgomery County Pharmacy Defendants in July 2018. It amended its complaint in March 2019, and filed the operative, supplemental and amended Complaint in May 2021.

27. The Montgomery County Pharmacy Defendants answered Plaintiff’s amended complaint on September 21, 2021. Each Montgomery County Pharmacy Defendant denied all liability to Plaintiff. (Doc. Nos. 69-74.) The Montgomery County Pharmacy Defendants also filed a motion to dismiss, which the Court denied. (See Doc. Nos. 44-45.)

28. As explained above, Plaintiff's case theory is that the opioid crisis in Montgomery County can be traced to prescriptions filled by pharmacists working for the Montgomery County Pharmacy Defendants—but, for some reason, not pharmacists working at any of the many other independent and chain pharmacies that also dispensed opioid medications in Montgomery County, or anyone else involved in dispensing prescription opioid medications in Montgomery County. Plaintiff's core assertion is that these pharmacists allegedly filled prescriptions for opioid medications that they should not have filled, ultimately resulting in harm to Plaintiff and/or a public nuisance. Plaintiff has not identified even one such prescription, but still claims that the Montgomery County Pharmacy Defendants (but no other pharmacies or healthcare providers) are at fault and liable to Plaintiff.

29. Prescriptions filled by the Montgomery County Pharmacy Defendants were written by physicians and other authorized healthcare practitioners who were duly licensed by the State of Ohio² to practice medicine (or in an affiliated field) and registered by the Drug Enforcement Administration. Plaintiff does not allege that a pharmacist working for any of the Montgomery County Pharmacy Defendants ever dispensed a prescription opioid medication without a facially valid prescription written by a licensed and registered doctor or other practitioner.

30. All prescriptions issued by practitioners and filled by the Montgomery County Pharmacy Defendants were reported to OARRS. At all times, both the State of Ohio and the DEA could suspend or revoke any practitioner's ability to prescribe controlled substances if they had any concern about his or her prescribing practices. What is more, Plaintiff itself had the ability to

² In an unusual case, the prescriber may practice in another state, in which case he or she would need to be licensed by the local state medical board.

pursue criminal penalties against a practitioner engaged in misconduct that affected Montgomery County or its residents.

31. Every prescription for a controlled substance amounts to an affirmative representation by the prescriber to the pharmacist that the prescription is proper in all respects, that it was issued for a legitimate medical purpose, and that it was issued by the prescribing practitioner acting in the usual course of his or her professional practice. *See* 21 C.F.R. § 1306.04(a).

32. While pharmacists exercise a “corresponding responsibility” with respect to dispensing, they do not and cannot examine patients, take patients’ medical histories, diagnose patients’ medical conditions, or prescribe treatment. Without the prescriber’s specialized medical training and knowledge, and familiarity with the patient and his or her medical history, a pharmacist will not be in a better position than the licensed and registered prescribing doctor or other practitioner to determine when a specific medication, including a prescription opioid medication, is appropriate therapy for a particular patient.

33. It is never permissible for a prescriber to write or otherwise authorize a prescription for a controlled substance except for a legitimate medical purpose and in the usual course of his or her professional practice. It is likewise never permissible for a prescriber to represent to a pharmacist, through the prescriber’s signature or other authorization, that a prescription is proper, that it was issued for a legitimate medical purpose, and that it was issued in the usual course of his or her professional practice when it was not.

34. Plaintiff alleges that the Montgomery County Pharmacy Defendants are liable in connection with the opioid crisis in Montgomery County because their pharmacists filled certain prescriptions that they allegedly should not have filled. Absent a criminal act of forgery—which

Plaintiff does not allege—every one of the prescriptions at issue was written and/or authorized by one of the Prescriber Defendants.

35. The Montgomery County Pharmacy Defendants deny Plaintiff's allegations and deny they are liable in any respect. But if the Montgomery County Pharmacy Defendants were to be found liable to Plaintiff because their pharmacists filled these prescriptions, it would be only because the pharmacists relied in good faith on facially valid prescriptions written and/or authorized by one of the Prescriber Defendants.

36. Defending against Plaintiff's lawsuit has already caused the Montgomery County Pharmacy Defendants to suffer harm in the form of attorneys' fees and other defense costs, which they continue to incur every day. In addition, if the Montgomery County Pharmacy Defendants were to be found liable to Plaintiff, they would suffer additional harm in the form of damages or other remedies, all because their pharmacists reasonably relied in good faith on prescriptions written and/or authorized by the Prescriber Defendants and filled those prescriptions.

Count One: Negligent Misrepresentation

37. The Montgomery County Pharmacy Defendants incorporate the allegations of paragraphs 1 through 36 and reallege them as if set forth verbatim herein.

38. Each of the Prescriber Defendants, in the course of his or her business and profession, had a special relationship with each of the Montgomery County Pharmacy Defendants and/or the pharmacists employed by the Montgomery County Pharmacy Defendants. By issuing prescriptions, the Prescriber Defendants provided information about which medications should be dispensed to particular patients. They provided this information as guidance for the Montgomery County Pharmacy Defendants and/or pharmacists employed by the Montgomery County Pharmacy Defendants.

39. With each prescription for a controlled substance, the Prescriber Defendants represented that the prescription was proper, was issued for a legitimate medical purpose, and was issued in the usual course of the Prescriber Defendant's professional practice. Among other things, pharmacists employed by the Montgomery County Pharmacy Defendants must, in their practice of pharmacy, rely on prescriptions written by Prescriber Defendants in order to dispense medicine to patients.

40. If a pharmacist employed by one of the Montgomery County Pharmacy Defendants ever filled a prescription that was not for a legitimate medical purpose, was not written in the usual course of a prescriber's professional practice, or was otherwise improper, the pharmacist did so only because of his or her reasonable reliance on an affirmative representation by one of the Prescriber Defendants that the prescription was proper to fill, including being for a legitimate medical purpose and written in the usual course of the Prescriber Defendant's professional practice.

41. In each such case, while the pharmacist employed by one of the Montgomery County Pharmacy Defendants justifiably relied on at least one of the Prescriber Defendant's representations, the Prescriber Defendant failed to exercise reasonable care or competence in making those representations, resulting in the pharmacist allegedly filling a prescription that should not have been filled.

42. In such a case, as a direct and proximate result of the pharmacist's reasonable reliance on the Prescriber Defendant's affirmative representation that the prescription was proper to fill, including being for a legitimate medical purpose and written in the usual course of the Prescriber Defendant's professional practice, the Montgomery County Pharmacy Defendants have suffered damages in an amount to be proven at trial.

Count Two: Common Law Negligence

43. The Montgomery County Pharmacy Defendants incorporate the allegations of paragraphs 1 through 36 and reallege them as if set forth verbatim herein.

44. Each Prescriber Defendant had a duty to patients and dispensing pharmacies to exercise due care in their prescribing decisions and practices. Each Prescriber Defendant needed to ensure that every prescription for an opioid medication was proper in all respects, including being issued for a legitimate medical purpose and in the usual course of the Prescriber Defendant's professional practice.

45. If, as Plaintiff's Complaint necessarily implies, a Prescriber Defendant wrote a prescription for an opioid medication other than for a legitimate medical purpose, outside the usual course of the Prescriber Defendant's professional practice, or that was otherwise improper, the Prescriber Defendant breached his or her duties and acted negligently.

46. If a pharmacist employed by one of the Montgomery County Pharmacy Defendants ever filled a prescription that was not for a legitimate medical purpose, was not written in the usual course of the prescriber's professional practice, or that was otherwise improper, the pharmacist did so only as a result of the negligence of one of the Prescriber Defendants.

47. In such a case, as a direct and proximate result of the Prescriber Defendant's negligence, the Montgomery County Pharmacy Defendants have suffered damages in an amount to be proven at trial.

Count Three: Intentional Fraud

48. The Montgomery County Pharmacy Defendants incorporate the allegations of paragraphs 1 through 36 and reallege them as if set forth verbatim herein.

49. Pharmacists employed by the Montgomery County Pharmacy Defendants would never knowingly dispense a prescription opioid medication without a valid prescription.

50. If a pharmacist employed by one of the Montgomery County Pharmacy Defendants ever filled a prescription that was not for a legitimate medical purpose, was not written in the usual course of the prescriber's professional practice, or was otherwise improper, the pharmacist did so only because of his or her reasonable reliance on an affirmative representation by one of the Prescriber Defendants that the prescription was proper to fill, including being for a legitimate medical purpose and written in the usual course of the Prescriber Defendant's professional practice.

51. These representations were material to the transactions at hand: without such a prescription and the affirmative representations by a Prescriber Defendant embedded therein, the pharmacist would not have filled the prescription.

52. Plaintiff's Complaint necessarily implies that one or more Prescriber Defendants affirmatively misrepresented that a prescription was proper, was issued for a legitimate medical purpose, and/or was issued in the usual course of the Prescriber Defendant's professional practice, and did so with knowledge of the representations' falsity, or with such utter disregard as to whether they were true or false that knowledge may be inferred.

53. In such a case, the representations were made with the intent that a pharmacist would rely upon the Prescriber Defendant's misrepresentations and subsequently fill the prescription.

54. In such a case, the pharmacist employed by one of the Montgomery County Pharmacy Defendants reasonably relied on the Prescriber Defendant's representations and medical expertise.

55. In such a case, as a direct and proximate result of the pharmacist's reasonable reliance on the Prescriber Defendant's affirmative representation that the prescription was proper to fill, including being for a legitimate medical purpose and written in the usual course of the Prescriber Defendant's professional practice, the Montgomery County Pharmacy Defendants have suffered damages in an amount to be proven at trial.

Count Four: Indemnification

56. The Montgomery County Pharmacy Defendants incorporate the allegations of paragraphs 1 through 36 and reallege them as if set forth verbatim herein.

57. Each Prescriber Defendant had a duty to patients and dispensing pharmacies to exercise due care in their prescribing decisions and practices. Each Prescriber Defendant needed to ensure that every prescription for an opioid medication was proper in all respects, including being issued for a legitimate medical purpose and in the usual course of the Prescriber Defendant's professional practice.

58. To the extent that a Prescriber Defendant ever wrote a prescription for an opioid medication other than for a legitimate medical purpose, outside the usual course of the Prescriber Defendant's professional practice, or that was otherwise improper, the Prescriber Defendant breached his or her duties and acted negligently or engaged in intentional misconduct.

59. If a pharmacist employed by one of the Montgomery County Pharmacy Defendants ever filled a prescription that was not for a legitimate medical purpose, was not written in the usual course of the prescriber's professional practice, or was otherwise improper, the pharmacist did so only as a result of the negligence or intentional misconduct of one of the Prescriber Defendants.

60. In such a case, the Prescriber Defendant's negligence or intentional misconduct was the primary cause—the active negligence—in the ultimate result of improper opioid prescriptions and/or the dispensing of opioid medications in response to prescriptions that allegedly should not have been filled. Even if there were negligence on the part of one of the Montgomery County Pharmacy Defendants or a pharmacist employed by one of the Montgomery County Pharmacy Defendants—which the Montgomery County Pharmacy Defendants expressly deny—such negligence would have been at most passive and unknowing negligence in comparison to the Prescriber Defendant's active negligence.

61. If the Montgomery County Pharmacy Defendants were to be found liable to Plaintiff, the Montgomery County Pharmacy Defendants would have incurred liability without fault and/or as a result of acts committed by the Prescriber Defendants and/or for wrongs committed by the Prescriber Defendants, giving rise to an obligation of indemnification by the Prescriber Defendants in an amount to be determined at trial.

Count Five: Contribution

62. The Montgomery County Pharmacy Defendants incorporate the allegations of paragraphs 1 through 36 and reallege them as if set forth verbatim herein.

63. Federal Rule of Civil Procedure 14 provides that a “defending party may, as third-party plaintiff, serve a summons and complaint on a nonparty who is or may be liable to it for all or part of the claim against it.”

64. For the reasons set forth above, the Prescriber Defendants are or may be liable to the Montgomery County Pharmacy Defendants with respect to Plaintiff's claims against the Montgomery County Pharmacy Defendants.

65. If the Montgomery County Pharmacy Defendants were to be found to owe duties to Plaintiff and were to be found liable to Plaintiff, then so too would the Prescriber Defendants owe duties to Plaintiff, have breached those duties, and be liable to Plaintiff.

66. If the Montgomery County Pharmacy Defendants were to be found liable to Plaintiff, the Prescriber Defendants would be joint alleged tortfeasors in comparison to whom the Montgomery County Pharmacy Defendants would be held responsible for more than their share of a common liability and/or liability that should have been allocated exclusively to one or more of the Prescriber Defendants, giving rise to a right of contribution against the Prescriber Defendants in an amount to be determined at trial.

Prayer for Relief

The Montgomery County Pharmacy Defendants respectfully request that the Court enter judgment in favor of the Montgomery County Pharmacy Defendants and against the Prescriber Defendants, and each of them jointly and severally, as follows:

- A. Compensatory damages in an amount to be determined at trial;
- B. Attorneys' fees, costs, and pre- and post-judgment interest; and
- C. Such other and further relief as may be appropriate under applicable law.

Jury Demand

The Montgomery County Pharmacy Defendants demand a jury trial on all issues so triable.

Dated: October 5, 2021
